CHAPTER NO	TITLE	PAGE NO
	List of Tables	
	List of Figures	
	List of Plates	
1.	Introduction	1
2.	Review of Literature	10
	2.1 Gestational Diabetes Mellitus – A Compendium of Literature	10
	2.1.1 Definition	10
	2.1.2 Prevalence of GDM – Global Scenario	11
	2.1.3 Prevalence of GDM in India	13
	2.1.4 GDM – A Forerunner of Type 2 DM	16
	2.1.5 Risk Factors for GDM	16
	2.1.6 Management of GDM - Screening, Diagnosis, Treatment, Monitoring and Evaluation of GDM	17
	2.1.6.1 Screening and Diagnosis of GDM	17
	2.1.6.2 Treatment of GDM	20
	2.1.6.3 Diet Therapy	20
	2.1.6.4 Exercise in GDM	21
	2.1.6.5 Pharmacological Treatment	22
	2.1.6.6 Role of Probiotics in GDM treatment	23
	2.1.6.7 Monitoring and Evaluation of GDM	25
	2.1.6.8 Blood Glucose Monitoring	26
	2.1.6.9 Complications of GDM – Maternal Outcomes and Foetal Outcomes	27
	2.1.6.10 Epigenetic Programming and GDM	30
	2.1.6.11 Barriers to Medical Management of GDM	31
2.2	Medical Nutrition Therapy (MNT) for Sustainable Management of GDM	33
	2.2.1 Definition of MNT and Purpose of MNT in GDM	33
	2.2.2 Nutrition Care Process for GDM Management	34
	2.2.3 Using the NCP	34
	2.2.4 MNT and Maternal Foetal Outcomes	35
	2.2.5 Dietetic Interventions in GDM	36
	2.2.6 MNT Guidelines for GDM Management	37
	2.2.7 Barriers to Medical Nutrition Therapy in GDM	37

CHAPTER NO	TITLE	PAGE NO
	2.3. Standard Operating Protocol Enhancement in Management of GDM	38
	2.3.1 Definition of SOP	38
	2.3.2 Purpose of SOP in Quality Enhancement	39
	2.3.3 SOP for GDM Management	42
	2.3.4 SOP And Maternal Foetal Outcomes	42
	2.4 Mobile Apps for Gestational Diabetes Mellitus	42
3.	Methodology	44
	Phase I	45
	3.1 Baseline Survey to Study the Current Practices and Protocols in the Management of Gestational Diabetes Mellitus (GDM)	45
	3.1.1 Ethical Approval	45
	3.1.2 Locale of the Study	45
	3.1.3 Selection of Healthcare Professionals (HCPs) to Study the Current Practices and Protocols in GDM Management	46
	3.1.4 Selection of Pregnant women to Study the Medical Treatment and MNT Practices received by them	49
	3.1.4 Gap Analysis of Existing Practices/Protocols in GDM Management	50
	Phase II	52
	3.2 Augment, Validate and Optimisation a Sustainable Standard Operating Protocol (SSOP) for Medical Nutrition Therapy (MNT) of GDM women	52
	3.2.1 Augmentation of SSOP	52
	3.2.2 Validation of SSOP	54
	3.2.3 Optimisation of SSOP	55
	Phase III	56
	3.3 Development, Validation and Optimisation of a Mobile Application (Mobile App) for SSOP	56
	3.3.1 Development of a Mobile App	56
	3.3.2 Validation of the Mobile App	58
	3.3.3 Optimisation of Mobile App	58

CHAPTER NO	TITLE	PAGE NO
	Phase IV	58
	3.4 Implement and Evaluation of the SSOP on Maternal and Foetal Outcomes	58
	3.4.1 Selection of Sample Size and Sampling Technique	59
	3.4.2 Identification of Pregnant Women	59
	3.4.3 Categorisation of Pregnant Women as Experimental and Control groups	60
	3.4.4. Intervention with SSOP based MNT	60
	3.4.5. Evaluation of SSOP	64
	Statistical Interpretation	65
4.	Results and Discussion	66
	Phase I	69
	4.1 Details on Current Practices and Protocols in the Management of Gestational Diabetes Mellitus (GDM) among HCPs	69
	4.1.1. Demographic Profile of HCPs	69
	4.1.2. Concepts and Perceptions of HCPs about GDM and Practices and Protocols for GDM Management	71
	4.1.2.1. Responses of HCPs on GDM	71
	4.1.2.2. Delivery Outcomes Commonly seen by HCPs among GDM women	72
	4.1.2.3. Foetal Complications Commonly Seen by HCPs among Infants of GDM Women	73
	4.1.2.4. Responses of HCPs on Protocols in GDM Management	74
	4.1.3. Gap Analysis of Current Practices and Protocols with National Guidelines regarding Medical Management of GDM	75
	4.1.4. Concepts and Perceptions of Dietitians about MNT Practices and Protocols for GDM Management	78
	4.1.4.1. Role and Importance of MNT	79
	4.1.4.2. Confidence Level of Dietitians to follow SSOP for MNT and their Understanding of Evidence-based MNT guidelines for GDM	80
	4.1.4.3. MNT Components discussed for Diet Counselling of GDM Women	80
	4.1.4.4. Type, Duration and Frequency of Diet Counselling for GDM	82
	4.1.5. Gaps Analysis of Current MNT Practices and Protocols with National Guidelines for GDM Management	84

CHAPTER NO	TITLE	PAGE NO
	4.1.6. Current Practices and Management of GDM as per Responses of Pregnant Women	87
	4.1.6.1. Demographic Profile of Pregnant Women	87
	4.1.6.2. Anthropometric Measurements and BMI Categorisation of Pregnant Women	88
	4.1.6.3. Biochemical Tests and OGTT among Pregnant Women	89
	4.1.6.4. Clinical Details of Pregnant Women	90
	4.1.6.5. Dietary Assessment of Pregnant Women	91
	4.1.7. Concepts and Perceptions about GDM among Pregnant Women	92
	4.1.7.1. Risk factors of GDM	92
	4.1.7.2. Understanding the Consequences of GDM among Pregnant Women	93
	4.1.7.3. Perception towards Managing Pregnancy among Pregnant Women	93
	4.1.8. Details of MNT Practices and Physical Activity among Pregnant Women	94
	4.1.8.1. MNT Practices received among Pregnant Women	94
	4.1.8.2. Physical Activity Patterns among Pregnant Women	95
	4.1.9. Details of Delivery Outcomes among Pregnant Women	96
	4.1.10. Patient Education Activities for GDM	98
	4.1.11. Mapping of Lacunae Identified in Current Practices and Protocols in GDM Management	98
	Phase II	100
	4.2 Development, Validation and Optimisation of a SSOP for MNT of GDM women	100
	4.2.1 Development of SSOP	100
	4.2.2 Validation of SSOP	105
	4.2.3 Optimisation of SSOP	106
	Phase III	107
	4.3 Development, Validation and Optimisation of a Mobile App for SSOP of MNT for HCPs	107
	4.3.1 Development of a Mobile App	107

CHAPTER NO	TITLE	PAGE NO
	4.3.2 Validation of Mobile App	111
	4.3.3 Optimisation of Mobile App	113
	Phase IV	114
4.4	Implementation and Evaluation of SSOP for MNT among Pregnant Women	114
4.4.1.	Demographic Profile of Pregnant Women	114
4.4.2.	SSOP based GDM Risk Screening of Pregnant Women	116
4.4.2.1.	GDM Risk Screening	116
4.4.2.2.	Categorisation of GDM Risk	117
4.4.2.3.	GDM Risk Screening and Diagnosis of GDM	117
4.4.2.4.	Detection of GDM in Pregnant Women	118
4.4.3.	SSOP based Assessment of Pregnant Women	119
4.4.3.1.	Anthropometric Measurements and Body Mass Index (BMI)	119
4.4.3.2.	Biochemical Investigations (First Trimester)	119
4.4.3.3.	Oral Glucose Tolerance Test (OGTT)	120
4.4.3.4.	Clinical Assessment (Antenatal Period)	121
4.4.3.5.	Dietary Assessment	122
4.4.4.	SSOP based Diagnosis of Pregnant Women	123
4.4.4.1.	Derivation of Nutrition Diagnosis	123
4.4.5.	SSOP based Intervention of Pregnant Women	123
4.4.5.1.	Assessment of Nutrition Education Sessions using Knowledge, Attitude and Practice (KAP) Study in a Selected Sample of Pregnant Women	123
4.4.5.2.	Requirement of Medical and Nutritional Interventions among Pregnant Women	124
4.4.6.	SSOP based Monitoring of Pregnant Women	125
4.4.6.1.	Blood Glucose Monitoring among Pregnant Women	125
4.4.6.2.	Gestational age at Delivery and Total Weight Gained among Pregnant Women	126
4.4.6.3.	Adequacy of Gestational Weight Gain (GWG) among Pregnant Women	126
4.4.7.	SSOP based Evaluation of Pregnant Women	127
4.4.7.1.	Delivery Details among Pregnant Women	127
4.4.7.2.	Maternal Outcomes among Pregnant Women	129

CHAPTER NO	TITLE	PAGE NO
	4.4.7.3. Multiple Logistic Regression for Identifying Risk Factors Affecting Adverse Maternal Outcomes	131
	4.4.7.4. Foetal Outcomes among Newborns of Pregnant Women	132
	4.4.7.5. Multiple Logistic Regression for Identifying Risk Factors Affecting Adverse Foetal Outcomes	133
	4.4.7.6. Multiple Logistic Regression for Identifying the Risk Factors of GDM	134
	4.4.7.7. Comparison of Mode of delivery, Birth weight of Newborns and Presence of Adverse Maternal and Foetal outcomes among Pregnant Women (Phase I) and Pregnant women (Phase IV)	135
5.	Summary and Conclusion	137
	Bibliography	165
	Glossary	194
