Chapter No.	Title	Page No.
	Abstract	(i)
	Introduction	1
	Review of Literature	7
1	Preliminaries 1.1 Closed and Open sets in Topological Spaces 1.2 Definitions and Results Related to Spaces 1.3 Mappings in Topological Spaces 1.4 Closed and Open Maps in Topological Spaces	15 17 18 20
2	λ_g^α-Closed Sets and λ_g^α-Open Sets in Topological Spaces 2.1 Introduction 2.2 λ_g^α -Closed Sets 2.3 Properties of λ_g^α -Closed Sets 2.4 λ_g^α -Open Sets 2.5 Properties of λ_g^α -Closure and λ_g^α -Interior Operators	22 23 29 32 34
3	λ_g^α-Continuous Maps and λ_g^α-Irresolute Maps in Topological Spaces 3.1 Introduction 3.2 λ_g^α -Continuous Maps 3.3 λ_g^α -Irresolute Maps 3.4 Special Types of λ_g^α -Continuous Maps	39 40 50 55

4	Contra λ_g^α-Continuous Maps and Contra λ_g^α-Irresolute Maps in Topological Spaces 4.1 Introduction 4.2 Contra λ_g^α -Continuous Maps 4.3 Contra λ_g^α -Irresolute Maps	63 64 74
5	λ_g^α-Closed Maps and λ_g^α-Open Maps in Topological Spaces 5.1 Introduction 5.2 λ_g^α -Closed Maps 5.3 λ_g^α -Open Maps 5.4 Quasi λ_g^α -Open Maps and Strongly λ_g^α -Open Maps 5.5 Compositions of λ_g^α -Closed Maps and λ_g^α -Open Maps	78 79 84 86 91
6	λ_g^α-Homeomorphisms in Topological Spaces 6.1 Introduction 6.2 λ_g^α -Homeomorphisms	97 98
7	λ_g^α-Quotient Maps in Topological Spaces 7.1 Introduction 7.2 λ_g^α -Quotient Maps and its Special Forms 7.3 Compositions of λ_g^α -Quotient Maps	107 107 112
8	Bi-Contra λ_g^α-Continuous Maps in Topological Spaces 8.1 Introduction 8.2 Bi-Contra λ_g^α -Continuous Maps and its Special Forms	115 115
	Summary and Conclusion	123
	Bibliography	125
