LIST OF TABLES

TABLE No.	TITLE	PAGE No.
1.	Activities of enzymic antioxidants in <i>Triticum aestivum</i> leaves	86
2.	Levels of non-enzymic antioxidants in <i>Triticum aestivum</i> leaves	87
3.	Effect of <i>Triticum aestivum</i> leaves on H ₂ O ₂ -induced DNA damage in Hep2 and KB cells	102
4.	Effect of <i>Triticum aestivum</i> leaves on SOD activity in H ₂ O ₂ induced oxidative stress in goat liver slices	105
5.	Effect of <i>Triticum aestivum</i> leaves on CAT activity in H ₂ O ₂ induced oxidative stress in goat liver slices	106
6.	Effect of <i>Triticum aestivum</i> leaves on POD activity in H ₂ O ₂ induced oxidative stress in goat liver slices	107
7.	Effect of <i>Triticum aestivum</i> leaves on GR activity in H ₂ O ₂ induced oxidative stress in goat liver slices	108
8.	Effect of <i>Triticum aestivum</i> leaves on GST activity in H ₂ O ₂ induced oxidative stress in goat liver slices	109
9.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin C in H ₂ O ₂ induced oxidative stress in goat liver slices	110
10.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin E in H ₂ O ₂ induced oxidative stress in goat liver slices	111
11.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin A in H ₂ O ₂ induced oxidative stress in goat liver slices	112
12.	Effect of <i>Triticum aestivum</i> leaves on the levels of reduced glutathione in H ₂ O ₂ induced oxidative stress in goat liver slices	113
13.	Effect of <i>Triticum aestivum</i> leaves on serum transaminase activities in ethanol-CCl ₄ treated rats	115
14.	Effect of <i>Triticum aestivum</i> leaves on serum ALP and γ -GT activities in ethanol-CCl ₄ treated rats	116
15.	Effect of <i>Triticum aestivum</i> leaves on serum bilirubin levels in ethanol-CCl ₄ treated rats	117
16.	Effect of <i>Triticum aestivum</i> leaves on serum cholesterol and triglyceride levels in ethanol-CCl ₄ treated rats	119
17.	Effect of <i>Triticum aestivum</i> leaves on serum free fatty acid and phospholipid levels in ethanol-CCl ₄ treated rats	120

18.	Effect of <i>Triticum aestivum</i> leaves on the activity of SOD in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	122
19.	Effect of <i>Triticum aestivum</i> leaves on the activity of CAT in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	123
20.	Effect of <i>Triticum aestivum</i> leaves on the activity of POD in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	125
21.	Effect of <i>Triticum aestivum</i> leaves on the activity of GST in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	126
22.	Effect of <i>Triticum aestivum</i> leaves on the activity of GR in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	127
23.	Effect of <i>Triticum aestivum</i> leaves on the activity of G6PD in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	129
24.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin C in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	130
25.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin E in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	132
26.	Effect of <i>Triticum aestivum</i> leaves on the levels of Vitamin A in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	133
27.	Effect of <i>Triticum aestivum</i> leaves on the levels of GSH in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	134
28.	Effect of <i>Triticum aestivum</i> leaves on the levels of protein thiols in the liver and kidney of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	136
29.	Effect of <i>Triticum aestivum</i> leaves on the levels of TBARS in the liver of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	137

LIST OF FIGURES

FIGURE No.	TITLE	PAGE No.
1	Effect of <i>Triticum aestivum</i> leaves on SO [•] generation <i>in vitro</i>	89
2	Effect of <i>Triticum aestivum</i> leaves on NO generation <i>in vitro</i>	90
3	Effect of <i>Triticum aestivum</i> leaves on DPPH radical scavenging activity	93
4	Hydroxyl radical scavenging activity of <i>Triticum aestivum</i> leaves	94
5	H ₂ O ₂ scavenging activity of <i>Triticum aestivum</i> leaves	95
6	Effect of <i>Triticum aestivum</i> leaves on lipid peroxidation in different membrane preparations	98
7	Effect of <i>Triticum aestivum</i> leaves on oxidative damage induced in herring sperm DNA	101
8	Effect of <i>Triticum aestivum</i> leaves on the viability of Hep2 and KB cells	104
9	Effect of <i>Triticum aestivum</i> leaves on the DPPH radical scavenging activity in the liver of rats exposed <i>in vivo</i> to ethanol-CCl ₄ induced oxidative stress	138
10	FT-IR analysis of <i>Triticum aestivum</i> leaves	143
11	¹ H-NMR spectrum of <i>Triticum aestivum</i> leaves	145
12	GC-MS analysis of <i>Triticum aestivum</i> leaves	146

LIST OF PLATES

PLATE No.		PAGE No.
1	<i>Triticum aestivum</i> leaves at three different stages of growth	85
2	DPPH Dot Plot assay	91
3	Migration patterns of pUC18 and λ DNA treated with H ₂ O ₂ with and without the leaf extracts	99
4	Histopathological architecture in the liver of control and experimental animals	140
5	Histopathological architecture in the kidney of control and experimental animals	141
