## LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
1	State wise scheduled tribe population in India – 2011	5
2	District wise scheduled tribe population in Tamil Nadu-2011	8
3	Taluk wise tribal population in Nilgiris District	47
4	Number of selected households in each tribal group	48
5	Scores assigned for different parameters used in calculating quality of life index	56-57
6	Socio-economic characteristics of the head of the selected tribal households	73
7	Benefits of tribal welfare programme availed by the selected tribal households	75
8	Age - sex composition of family members	77
9	Marital composition of family members	79
10	Literacy rate of selected tribal population	80
11	Attitude of tribal parents towards education of boys and girls	81
12	Estimated Chi-square values of association between attitude towards education and the selected socio economic characteristics of the households	82
13	Stage wise enrolment for the selected tribal groups	84
14	Stage wise dropout for the selected tribal groups	86
15	Gender disparity index in enrolment for the selected tribal groups (in percent)	88
16	Item wise per head educational expenditure incurred by the selected tribal households (in rupees)	89
17	Facilities availed by the selected tribal children	90
18	Frequency distribution of composite educational index for the selected tribal groups	91
19	Occupational composition of family members	94
20	Subsidiary occupation of family members	96
21	Monthly income composition of family members (in rupees)	97
22	Property possessed by the selected tribal households	99

<b>TABLE NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
23	Frequency distribution of selected tribal households owning consumer durables	101
24	Frequency distribution of monthly family expenditure for the selected tribal households	102
25	Item wise percentage of family expenditure for the selected tribal households	103
26	Amount of savings by the selected tribal households (in rupees)	106
27	Reasons for savings by the selected tribal households	107
28	Amount of debt incurred by the selected tribal households (in rupees)	108
29	Reasons for debt by the selected tribal households	109
30	Type of food intake by the selected tribal households	110
31	Prevalence of disease among selected tribal households	111
32	Type of treatment taken by the selected tribal households	112
33	Distance to health care centres for the selected tribal households	113
34	Details about the child immunization for the selected tribal households	114
35	Details about infant and child death in the selected tribal households	115
36	Source of drinking water for the selected tribal households	116
37	Type of water treatment by the selected tribal households	116
38	Available sanitation facilities for the selected tribal households	117
39	Source of fuel for the selected tribal households	118
40	Type of house for the selected tribal households	119
41	Number of rooms in the selected tribal households	120
42	Living area in the selected tribal households (in square feet)	121
43	Descriptive statistics of parameters used in estimating the quality of life index of the selected tribal households	123-124
44	Estimated Gini co-efficient ratio of selected parameters of quality of life index	128

<b>TABLE NO.</b>	<b>TITLE</b>	<b>PAGE NO.</b>
45	Classification of the selected tribal households based on the score of the parameters of quality of life index and estimated quality of life index	130-132
46	Estimated Sophers disparity index in quality of life index of selected tribal groups	136
47	Estimated communalities of different parameters of quality of life of Todas	138
48	Factors extracted for Todas households	139
49	Estimated communalities of different parameters of quality of life of Kotas	140
50	Factors extracted for Kotas households	142
51	Estimated communalities of different parameters of quality of life of Kurumbas	143
52	Factors extracted for Kurumbas households	145
53	Estimated communalities of different parameters of quality of life of Irulas	146
54	Factors extracted for Irulas households	148
55	Estimated communalities of different parameters of quality of life of Paniyans	149
56	Factors extracted for Paniyans households	151
57	Estimated communalities of different parameters of quality of life of Kattunayakans	152
58	Factors extracted for Kattunayakans households	154
59	Proportion of deprived and non-deprived households in terms of selected indicators	156
