

**Effect of Different Botanicals on the Keeping
Quality of Selected Pulses**

By
D. Gayathri

Supervisor
Dr. (Mrs.) K. Manimozhi

Thesis Submitted to
Avinashilingam Institute for Home Science and Higher Education
for Women, Coimbatore - 641043

In Partial Fulfilment of the Requirements for the Degree of
Doctor of Philosophy in Resource Management

September 2014

Certificate

This is to certify that dissertation entitled "**Effect of different botanicals on the keeping quality of selected pulses**" submitted to the Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, in partial fulfilment of the requirements for the award of the Degree of **Doctor of Philosophy in Resource Management**, is a record of original research work done by **D. Gayathri**, during the period of her study in the Department of Resource Management, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, under my supervision and guidance and the dissertation has not formed the basis for the award of any Degree / Diploma / Associateship / Fellowship or similar title to any candidate of any other University and represents entirely an independent work on the part of the candidate.

**Signature of the
Head of the Department**

Signature of the Guide

Acknowledgement

“As we express our gratitude, we must never forget that the highest appreciation is not to utter words, but to live by them”

John.F.Kennedy

First and foremost, the investigator places her humble salutations at the feet of ‘GOD ALMIGHTY’ for his uncountable blessings for the strength and perseverance bestowed upon her during the research leading her to realize her goal and to fulfill the task in a satisfactory manner.

*The investigator places her reverential gratitude, respect and admiration to the great architects of this temple of learning Padmabhusan **Dr.T.S.Avinashilingam**, the **Founder and First Chancellor** and Padmashri **Dr.Rajammal P. Devadas**, **Former Chancellor**, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore for realizing their vision on Home Science education which has made learning in the portals of this institution possible.*

*The investigator expresses her gratitude and sincere thanks to **Dr.T.S.K.Meenakshisundaram**, **M.A., M.Phil., Ph.D., Chancellor**, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for all the amenities and infrastructure provided for the conduct of the study.*

*The investigator owes her sincere thanks to **Dr. (Mrs).Sheela Ramachandran**, **M.Sc., P.G.Dip., Ph.D., Vice Chancellor** of Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for providing all the facilities and support required for completion of the study.*

*The investigator also expresses her thanks to **Dr.(Mrs).Gowri Ramakrishnan**, **M.Sc.,(Madras), M.Phil., Ph.D., Registrar**, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for providing all the support in the smooth conduct of the study.*

*The investigator felt her deep sense of gratitude to **Dr.(Mrs.) N.Vasugi M.Sc., M.Phil, Ph.D., Dean, Faculty of Home Science, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for her kind words of encouragement in completion of the study.***

*The investigator expresses her heartfelt thanks to **Dr. (Mrs).A.Venmathi., M.Sc., Dip.Ed., M.Phil, Ph.D., Professor and Head, Department of Resource Management, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for her concern and encouragement shown throughout the study period which has helped in the completion of the study.***

*The investigator deems it a privilege to have **Dr. (Mrs).K.Manimozhi, M.Sc., B.Ed., M.Phil., Ph.D., Associate Professor, Department of Resource Management, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, as a guide and expresses sincere gratitude for her keen interest, patient hearing, untiring effort, skillful instructions, esteemed guidance and suggestions instilled in me the spirit of confidence to successfully complete the task. The investigator thanks her for the untiring encouragement and serving as a role model. The enthusiasm and scientific temperament she has for research and her caring ways were contagiously motivating even during tough times in every step of her work.***

*Sincere gratitude is expressed to **Dr. M.R. Thilagam, M.Sc., M.Phil., Ph.D., Professor, Resource Management for her spontaneous and timely help rendered for the completion of the study. The investigator expresses sincere thanks to each and every one of the Faculty Members, Department of Resource Management for their kind support and good wishes.***

*The investigator is deeply obligated and grateful to **Dr.M.R.Duraisamy, Professor and Head, Department of Physical Science and Information Technology, Tamil Nadu Agricultural University, Coimbatore, for his valuable help and guidance rendered in the statistical analysis and consistent encouragement given throughout the study.***

*The investigator feels indebted for the continuous support and co-operation extended by the **homemakers, shop keepers and farmers** in the selected village. The investigator expresses her sincere thanks to **Block Development Officers and Agriculture Officers** of Anamalai and Pollachi blocks.*

*The investigator feels great and expresses her heartfelt thanks to all the **friends and well-wishers** who helped in many ways throughout the study period.*

*The investigator bows and devotes her gratitude and love to her beloved **family** for their constant prayers, blessings, invaluable support and holding her strongly in all places wherever she faltered. The dream of pursuing the doctoral study was achievable only due to the unconditional love and sacrifices of her family members.*

*Last but not the least, the investigator cherishes to express her deepest thanks to all the **unseen hands** behind this endeavour.*

List of Tables

TABLE NO.	TITLE	PAGE NO.
I	Course content of the training programme	74
II	Categorization of levels of knowledge, attitude and adoption of the trainees	84
III	Socio-economic profile of the selected households	87
IV	Frequency of purchasing pulses	89
V	Average quantum of pulses stored for six months by the selected households	90
VI	Duration of storing different pulses	91
VII	Storage devices / containers used	91
VIII	Problems identified during storage of pulses	93
IX	Percentage loss of pulses during storage	94
X	Degree of susceptibility of pulses to spoilage and damage by insects and pests	95
XI	Methods adopted to overcome problem faced during storage of pulses	97
XII	Disposal of infected pulses	98
XIII	Frequency of procuring pulses	98
XIV	Quantum of pulses procured and sold per month	99
XV	Percentage losses of pulses during two months storage in the selected shops	101
XVI	Effect of botanicals on the moisture content of selected pulses at the end of sixth month	104
XVII	Average moisture content of selected stored pulses	106
XVIII	Effect of botanicals on the weevilization percentage of selected pulses at the end of sixth month	108

TABLE NO.	TITLE	PAGE NO.
XIX	Average weevilization percentage of selected stored pulses	110
XX	Effect of botanicals on the germination percentage of selected pulses at the end of sixth month	112
XXI	Average germination percentage of selected stored pulses	115
XXII	Average organoleptic quality of prepared dishes stored with botanicals	117
XXIII	Association between the levels of knowledge, attitude, and adoption and socio- demographic variables of the selected homemakers	128
XXIV	Association between the level of knowledge, attitude, and adoption and socio - demographic variables of the selected shop keepers	130
XXV	Homemakers' knowledge on the use of botanicals before and after training programme	132
XXVI	Homemakers' attitude towards the use of botanicals during storage before and after training programme	133
XXVII	Homemakers' adoption level of using botanicals before and after training programme	134
XXVIII	Shop keepers' knowledge towards the use of botanicals during storage before and after training programme	136
XXIX	Shop keepers' attitude towards the use of botanicals during storage before and after training programme	137
XXX	Level of adoption by the shop keepers towards the use of botanicals during storage	138
XXXI	Losses of pulses before and after adoption of botanicals during storage	140
XXXII	Average quantum of pulses saved and its monetary benefit per household	142
XXXIII	Opinion regarding the use of botanical leaf powders during storage of pulses	144
XXXIV	Suggestions for better adoption on using botanicals in storage by selected homemakers and shop keepers	145

List of Figures

FIGURE NO.	TITLE	PAGE NO.

15	Insect infected pulses during storage	96
16	Germination of selected pulses	114
17	Recipes prepared using stored pulses	119
18	Adoption practices of using botanicals during storage of pulses by homemakers and shop keepers	143

List of Appendices

APPENDIX NO.	TITLE	PAGE NO.
I	The villages selected for the study	182
II	Interview schedule to elicit information on storage practice of pulses in the selected households	183
III	Market survey to elicit information on pulse consumption pattern of consumers in Anamalai and Pollachi block	187
IV	Booklets and Pamphlet distributed during training programme	189
V	Knowledge inventory to assess the knowledge of the homemakers towards safe storage practices of pulses	219
VI	Attitude scale used before and after the training programme	221
VII	Adoption scale used before and after training programme	222
VIII	Effect of botanicals on moisture content of the selected pulses stored in three different storage devices	223
IX	ANOVA results - Completely Randomized Design for moisture content	229
X	Effect of botanicals on weevilization percentage of the selected pulses stored in three different storage devices	231
XI	ANOVA results - Completely Randomized Design for weevilization percentage	234
XII	Effect of Botanicals on germination percentage of the selected pulse stored in three different storage devices	236
XIII	ANOVA results - Completely Randomized Design for germination percentage	239
