| CHAPTER | TITLE  | PAGE NO |
|---------|--|---------|
|         | INTRODUCTION   | 1       |
|         | REVIEW OF LITERATURE   | 6       |
| I       | ON GENERALIZED $b$ -CLOSED SETS IN TOPOLOGICAL SPACES                          | 10      |
|         | 1.1 Preliminaries  | 10      |
|         | 1.2 Generalized $b$ -closed sets   | 14      |
|         | 1.3 $ap$ - $b$ -continuous, $ap$ - $b$ -closed and contra $b$ -continuous maps | 18      |
|         | 1.4 Characterization of $T_{gs}$ -spaces                                       | 26      |
| II      | ON GENERALIZED $b$ -CLOSED SETS AND THEIR RELATIONSHIP                         | 30      |
|         | 2.1 Preliminaries  | 30      |
|         | 2.2 $gb$ -closed sets and their relationship                                   | 33      |
| III     | ON $\pi gb$ -CLOSED SETS IN TOPOLOGICAL SPACES                                 | 42      |
|         | 3.1 Preliminaries  | 42      |
|         | 3.2 $\pi gb$ -closed sets  | 43      |
|         | 3.3 $\pi gb$ -open sets  | 51      |
|         | 3.4 $\pi gb$ -continuous and $\pi gb$ -irresolute functions                    | 55      |
|         | 3.5 $\pi gb$ -compact spaces   | 63      |
|         | 3.6 Quasi- $b$ -normal spaces  | 66      |
| IV      | ON $\pi gb^*$ -CLOSED SETS IN TOPOLOGICAL SPACES                               | 70      |
|         | 4.1 Preliminaries  | 70      |
|         | 4.2 $\pi gb^*$ -closed sets  | 71      |
|         | 4.3 Characterizations of $\pi gb^*$ -closed sets                               | 78      |
| V       | ON $\pi gb^*$ -CONTINUOUS FUNCTIONS IN TOPOLOGICAL SPACES                      | 84      |
|         | 5.1 Preliminaries  | 84      |
|         | 5.2 $\pi gb^*$ -continuous functions   | 85      |

|    |   |     |
|----|---|-----|
|    | 5.3 characterizations of $\pi gb^*$ -continuous functions | 90  |
| VI | $\pi gb^*$ -COMPACT SPACES AND $\pi gb^*$ -NEIGHBORHOODS  | 94  |
|    | 6.1 Preliminaries   | 94  |
|    | 6.2 $\pi gb^*$ -compact spaces                            | 94  |
|    | 6.3 $\pi gb^*$ -neighborhoods                             | 100 |
