

LIST OF TABLES

TABLE NO.	TITLE	PAGE NO.
3.1	Experimental Design	53
3.2	Outline of teacher and learner behaviour within 7E model.	58
3.3	Weightage to Content	62
3.4	Weightage to Objectives	63
3.5	Weightage to Type of Questions	63
3.6	Weightage to Difficulty level	63
3.7	Blue Print of the Achievement Test in Science	64
3.8	Description of the Final Science Process Skills Questionnaire	68
3.9	Scoring Procedure for Observation Skill	69
3.10	Scoring Procedure for Classification Skill	69
3.11	Scoring Procedure for Communicating Skill	70
3.12	Scoring Procedure for Experimenting Skill	71
3.13	Scoring Procedure for Collection and Interpretation of data Skill	71
3.14	Scoring Procedure for Formulating Models	72
4.1	Descriptive Analysis for Achievement in Science and Attitude towards Science	84
4.2	Descriptive Analysis for Science Process Skills	84
4.3	Descriptive Analysis of Metacognitive Awareness	85
4.4	Relationship between Achievement in Science and Attitude towards Science	86
4.5	Correlation between Science Process Skills and Achievement in Science	87
4.6	Correlation between Science Process Skills and Attitude towards Science	88
4.7	Relationship between Metacognitive Awareness and Achievement in Science	89
4.8	Relationship between Metacognitive Awareness and Attitude towards Science.	90

TABLE NO.	TITLE	PAGE NO.
4.9	Comparison of Pre-test scores on Achievement in Science of Control group and Experimental group	91
4.10	Comparison of Pre-test and Post-test scores of Achievement in Science of Control group	92
4.11	Comparison of Pre-test and Post-test scores of Achievement in Science of Experimental group	93
4.12	Comparison of Post-test Achievement scores of Control group and Experimental group	94
4.13	Analysis of Covariance for Achievement in Science of Experimental group and Control group	96
4.14	Comparison of Pre-test scores on Achievement in Science of Boys and Girls of Control group and Experimental group	97
4.15	Comparison of Pre-test and Post-test scores on Achievement in Science of Boys and Girls of Control group	97
4.16	Comparison of Pre-test and Post-test scores on Achievement in Science of Boys and Girls of Experimental group	99
4.17	Comparison of Post-test scores on Achievement in Science of Boys and Girls of Control group and Experimental group	100
4.18	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Achievement in Science of Boys and Girls of Experimental group and Control group	101
4.19	Gender wise comparison of Pre-test scores of Achievement in Science of Control group and Experimental group	102
4.20	Gender wise comparison of Post-test scores of Achievement in Science of Control group and Experimental group	103
4.21	Comparison of Post-test and Delayed Post-test scores on Achievement in Science of Control group	104
4.22	Comparison of Post-test and Delayed Post-test scores of Achievement in Science of Experimental group	105
4.23	Comparison of Delayed Post-test means on Achievement in Science of Experimental group and Control group	107
4.24	Comparison of Pre-test scores of Science Process Skills of Control group and Experimental group	108
4.25	Comparison of Pre-test and Post-test scores of Science Process Skills of Control group	109
4.26	Comparison of Pre-test and Post-test scores of Science Process	110

TABLE NO.	TITLE	PAGE NO.
	Skills of Experimental group	
4.27	Comparison Of Post-Test Scores On Science Process Skills Of Control Group And Experimental Group	112
4.28	Comparison of Pre-test, Post-test and Adjusted Post-test means on Observation Skill of Experimental group and Control group	113
4.29	Comparison of Pre-test, Post-test and Adjusted Post-test means on Classification Skill of Experimental group and Control group	114
4.30	Comparison of Pre-test, Post-test and Adjusted Post-test means on Communicating Skill of Experimental group and Control group	115
4.31	Comparison of Pre-test, Post-test and Adjusted Post-test means on Experimenting Skill of Experimental group and Control group	116
4.32	Comparison of Pre-test, Post-test and Adjusted Post-test means on Collection and Interpretation of data skill of Experimental group and Control group	117
4.33	Comparison of Pre-test, Post-test and Adjusted Post-test means on Skill of Formulating Models of Experimental group and Control group	118
4.34	Comparison of Pre-test scores on Science Process Skills of Boys and Girls of Control group and Experimental group	119
4.35	Comparison of Pre-test and Post-test scores on Science Process Skills of Boys and Girls of Control group	120
4.36	Comparison of Pre-test and Post-test scores of Science Process Skills of Boys and Girls of Experimental group	121
4.37	Comparison of Post-test scores on Science Process Skills of Boys and Girls of Control group and Experimental group	123
4.38	Comparison of Pre-test, Post-test and Adjusted Post-test means on Observation Skill of Boys and Girls of Experimental group and Control group	124
4.39	Comparison of Pre-test, Post-test and Adjusted Post-test means on Classification Skill of Boys and Girls of Experimental group and Control group	126
4.40	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Communicating Skill of Boys and Girls of Experimental group and Control group	127
4.41	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Experimenting Skill of Boys and Girls of Experimental group and Control group	128
4.42	Comparison of the Pre-test, Post-test and Adjusted Post-test means	130

TABLE NO.	TITLE	PAGE NO.
	on Skill of Collection and Interpretation of data of Boys and Girls of Experimental group and Control group	
4.43	Comparison of the Pre-test Post-test and Adjusted Post-test means on Skill of Formulating Models of Boys and Girls of Experimental group and Control group	131
4.44	Gender wise comparison of Pre-test scores of Science Process Skills of Control group and Experimental group	133
4.45	Gender wise comparison of Post-test scores of Science Process Skills of Control group and Experimental group	134
4.46	Comparison of Pre-test scores on Attitude towards Science of Control group and Experimental group	135
4.47	Comparison of Pre-test and Post-test scores of Attitude towards Science of Control group	136
4.48	Comparison of Pre-test and Post-test scores of Attitude towards Science of Experimental group	137
4.49	Comparison of Post-test scores on Attitude towards Science of Control group and Experimental group	138
4.50	Analysis of Pre-test, Post-test and Adjusted Post-test means of Attitude towards Science of Experimental group and Control group	139
4.51	Comparison of Pre-test scores on Attitude towards Science of Boys and Girls of Control group and Experimental group	140
4.52	Comparison of Pre-test and Post-test Scores on Attitude towards Science of Boys and Girls of Control group	140
4.53	Comparison of Pre-test and Post-test scores on Attitude towards Science of Boys and Girls of Experimental group	142
4.54	Comparison of Post-test scores on Attitude towards Science of Boys and Girls of Control group and Experimental group	143
4.55	Comparison of Pre-test, Post-test and Adjusted Post-test means on Attitude towards Science of Boys and Girls of Experimental group and Control group	144
4.56	Gender wise comparison of Pre-test scores of Attitude towards Science of Control group and Experimental group.	145
4.57	Gender wise comparison of Post-test scores of Attitude towards Science of Control group and Experimental group	146

TABLE NO.	TITLE	PAGE NO.
4.58	Comparison of Post-test and Delayed Post-test scores of Attitude towards Science of Control group	147
4.59	Comparison of Post-test and Delayed Post-test scores of Attitude towards science of Experimental group	148
4.60	Comparison of Delayed Post-test scores on Attitude towards Science of Experimental group and Control group	149
4.61	Comparison of Pre-test scores of Metacognitive Awareness and its components of Control group and Experimental group	151
4.62	Comparison of Pre-test and Post-test scores of Metacognitive Awareness and its components of Control group	152
4.63	Comparison of Pre-test and Post-test scores of Metacognitive Awareness and its components of Experimental group	154
4.64	Comparison of Post-test scores on Metacognitive Awareness and its components of Control group and Experimental group	156
4.65	Comparison of Pre-test, Post-test and Adjusted Post-test means on Metacognitive Awareness of Experimental group and Control group	157
4.66	Comparison of Pre-test, Post-test and Adjusted Post-test means on Knowledge about Cognition of Experimental group and Control group	158
4.67	Comparison of Pre-test, Post-test, and Adjusted Post-test means on Regulation of Cognition of Experimental group and Control group	159
4.68	Comparison of Pre-test, Post-test and Adjusted Post-test means on Procedural Knowledge of Experimental group and Control group	160
4.69	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Declarative Knowledge of Experimental group and Control group	161
4.70	Comparison of Pre-test, Post-test and Adjusted Post-test means on Conditional Knowledge of Experimental group and Control group	162
4.71	Comparison of Pre-test, Post-test and Adjusted Post-test means on Planning of Experimental group and Control group	163
4.72	Analysis of Pre-test, Post-test and Adjusted Post-test means on Information Management Strategy of Experimental group and Control group	164
4.73	Comparison of Pre-test, Post-test and Adjusted Post-test means on Comprehension Monitoring of Experimental group and Control group	165

TABLE NO.	TITLE	PAGE NO.
4.74	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Debugging Strategy of Experimental group and Control group	166
4.75	Comparison of Pre-test, Post-test and Adjusted Post-test means on Evaluation of Experimental group and Control group	167
4.76	Comparison of pre-test scores of Metacognitive Awareness and its components of Boys and Girls of Control group and Experimental group	168
4.77	Comparison of Pre-test and Post-test scores of on Metacognitive Awareness and its components of Boys and Girls of Control group	169
4.78	Comparison of Pre-test and Post-test scores on Metacognitive Awareness and its components of Boys and Girls of Experimental group	171
4.79	Comparison of Post-test scores on Metacognitive Awareness and its components of Boys and Girls of Control group and Experimental group	173
4.80	Comparison of the Pre-test Post-test and Adjusted Post-test means on Metacognitive Awareness of Boys and Girls of Experimental group and Control group	175
4.81	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Knowledge about Cognition of Boys and Girls of Experimental group and Control group	176
4.82	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Regulation of Cognition of Boys and Girls of Experimental Group and Control group	177
4.83	Comparison of Pre-test, Post-test and Adjusted Post-test means on Procedural Knowledge of Boys and Girls of Experimental group and Control group	178
4.84	Comparison of the Pre-test, Post-test and Adjusted Post-test means of Boys and Girls on Declarative Knowledge of Experimental group and Control group	179
4.85	Comparison of the Pre-test, Post-test and Adjusted Post-test means of Boys and Girls on Conditional Knowledge of Experimental group and Control group	180
4.86	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Planning of Boys and Girls of Experimental group and Control group	181
4.87	Comparison of Pre-test, Post-test and Adjusted Post-test means on Information Management Strategy of Boys and Girls of Experimental group and Control group	182

TABLE NO.	TITLE	PAGE NO.
4.88	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Comprehension monitoring of Boys and Girls of Experimental group and Control group	183
4.89	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Debugging Strategy of Boys and Girls of Experimental group and Control group	184
4.90	Comparison of the Pre-test, Post-test and Adjusted Post-test means on Evaluation of Boys and Girls of Experimental group and Control group	185
4.91	Gender wise Comparison of Pre-test scores of Metacognitive Awareness and its components of Control group and Experimental group	187
4.92	Gender wise Comparison of Post-test scores on Metacognitive Awareness and its components of Control group and Experimental group	188
4.93	Response of students to semi structured interview questions	190
4.94	Response of Teachers and Head of the School to semi structured interview questions	192

LIST OF FIGURES

FIGURE NO.	TITLE	PAGE NO.
1.1	Differences between Inquiry-Based Approach and Traditional Approach	3
1.2	5E Inquiry Model	4
1.3	7E Inquiry Model	5
2.1	John Dewey's Inquiry Model	17
2.2	Suchman Inquiry Model	17
2.3	Kathy Short Inquiry/ Authoring Cycle	19
2.4	White and Frederickson Inquiry Cycle	19
2.5	5E- Learning Cycle	20
2.6	7E-LearningCycle	21
2.7	Hovland's Learning Theory Model	26
2.8	Flavell's Model of Metacognition	27
2.9	Brown's Model of Metacognition	28
2.10	Metacognitive Awareness Inventory	28
3.1	Sample Details	55
3.2	Instruction using 7E Cycle by the Investigator	59
3.3	Metacognitive Awareness Inventory	74
3.4	Students' activities in IBI Garden Preparation	79
3.5	Students in Elicit Stage	79
3.6	Students in Engage Stage	79
3.7	Students in Explore Stage	80
3.8	Students in Explain Stage	80
3.9	Students in Elaborate Stage	80
3.10	Students in Evaluate Stage	80
3.11	Students in Extend Stage	80
3.12	Scientist and Teachers Visit of IBI Garden	82
4.1	Comparison of Pre-test and Post-test scores of Achievement in Science of Control group	92
4.2	Comparison of Pre-test and Post-test scores of Achievement in Science of Experimental group	94

FIGURE NO.	TITLE	PAGE NO.
4.3	Comparison of Post-test scores Achievement in Science of Control group and Experimental group	95
4.4	Comparison of Pre-test and Post-test scores on Achievement in Science of Boys and Girls of Control group	98
4.5	Comparison of Pre-test and Post-test scores on Achievement in Science of Boys and Girls of Experimental group	99
4.6	Comparison of Post-test scores on Achievement in Science of Boys and Girls of Control group and Experimental group	100
4.7	Gender wise comparison of Post-test scores of Achievement in Science of Control group and Experimental group	104
4.8	Comparison of Post-test and Delayed Post-test scores of Achievement in Science of Control group	105
4.9	Comparison of Post-test and Delayed Post-test scores of Achievement in Science of Experimental group	106
4.10	Comparison of Delayed Post-test means on Achievement in Science of Experimental group and Control group	107
4.11	Comparison of Pre-test and Post-test scores of Science Process Skills of Control group	110
4.12	Comparison of Pre-test and Post-test scores of Science Process Skills of Experimental group	111
4.13	Comparison of Post-test scores on Science Process Skills of Control group and Experimental group	112
4.14	Comparison of Pre-test and Post-test scores on Science Process Skills of Boys and Girls of Control group	121
4.15	Comparison of Pre-test and Post-test scores of Science Process Skills of Boys and Girls of Experimental group	122
4.16	Comparison of Post-test scores on Science Process Skills of Boys and Girls of Control group and Experimental group	124
4.17	Comparison of Pre-test and Post-test scores of Attitude towards Science of Control group	136
4.18	Comparison of Pre-test and Post-test scores on Attitude towards Science of Experimental group	137
4.19	Comparison of Post-test scores on Attitude towards Science of Control group and Experimental group	138

FIGURE NO.	TITLE	PAGE NO.
4.20	Pre-test and Post-test Scores on Attitude towards Science of Boys and Girls of Control group	141
4.21	Comparison of Pre-test and Post-test scores on Attitude towards Science of Boys and Girls of Experimental group	142
4.22	Comparison of Post-test scores on Attitude towards Science of Boys and Girls of Control group and Experimental group	143
4.23	Gender-wise comparison of Post-test scores of Attitude towards Science of Control group and Experimental group	146
4.24	Comparison of Post-test and Delayed Post-test scores of Attitude towards Science of Control group	147
4.25	Comparison of Post-test and Delayed Post-test scores of Attitude towards Science of Experimental group	149
4.26	Comparison of Delayed Post-test means on Attitude towards Science of Experimental group and Control group	150
4.27	Comparison of Pre-test and Post-test scores of Metacognitive Awareness and its components of Control group	153
4.28	Comparison of Pre-test and Post-test scores of Metacognitive Awareness and its components of Experimental group	155
4.29	Comparison of Post-test scores on Metacognitive Awareness, its components and sub-components of Control group and Experimental group	156
4.30	Comparison of Pre-test and Post-test scores on Metacognitive Awareness and its components of Boys and Girls of Control group	170
4.31	Comparison of Pre-test and Post-test scores on Metacognitive Awareness and its components of Boys and Girls of Experimental group	172
4.32	Comparison of Post-test scores on Metacognitive Awareness and its components of Boys and Girls of Control group and Experimental group	174
5.1	Media reports related the Intervention	201
