CHAPTER NO.	TITLE	PAGE NO.
	LIST OF TABLES	
	LIST OF FIGURES	
	LIST OF PLATES	
	LIST OF APPENDICES	
I	INTRODUCTION	1
II	REVIEW OF LITERATURE	14
	A. Adolescent stress and stressors – An outlook	14
	B. Re-examining coping perspectives	25
	C. Resilience and stress coping repertoires	30
	D. Stress Inoculation Training (SIT) and its importance	37
	E. Different models of Stress Inoculation Training (SIT)	43
	F. Underpinnings of Stress Inoculation Training (SIT)	46
	G. Training Procedures of Stress Inoculation Training (SIT)	52
III	METHODOLOGY	55
	A. Population and sampling	55
	B. Construction of the tools	61
	C. Conduct of the study	68
	D. Analysis of data	80

CHAPTER NO.	TITLE	PAGE NO.
IV	RESULTS AND DISCUSSION	83
	I. General profile of the population sample	84
	II. Stress level and its repercussions among the population level	86
	A. Stress Level	
	<i>i. Categorization of the population sample with reference to the stress level</i>	87
	<i>ii. Gender - specific and Institution specific - differences in the stress mean score</i>	89
	B. Causative factors	
	<i>i. Correlation between stress level and the mean causative factor score</i>	95
	<i>ii. Gender - specific and Institution - specific differences in the causative factor score</i>	100
	C. Stress indicators	
	<i>i. Categorization of the population sample with reference to the level of stress indicator</i>	106
	<i>ii. Gender - specific and Institution - specific differences in the stress indicator mean score</i>	108
	III. Efficacy of SIT in term of stress level and its repercussions	115
	A. Stress Level – pre and post SIT	
	<i>i. Categorization of the experimental and control group based on their stress level</i>	116
	<i>ii. Impact of SIT on stress mean score of the experimental and control group</i>	120
	B. Impact of SIT on Causative factors	124
	C. Stress Indicators – pre and post	
	<i>i. Categorization of the experimental and control group based on the difference in their stress indicators level prior and post SIT</i>	130

CHAPTER NO.	TITLE	PAGE NO.
	<i>ii. Gender - specific and Institution - specific difference of the experimental and control group based on the mean stress indicators' score prior and post SIT</i>	133
	IV. Retention potential of SIT in terms of overall well-being	138
	A. Retention potential of SIT on resilience	138
	B. Retention potential of SIT on stress coping repertoires	145
	C. Retention potential of SIT on academic performance	149
	V. Feedback of the beneficiaries	155
V	SUMMARY AND CONCLUSION	158
