INTRODUCTION	1
REVIEW OF LITERATURE	18
CHAPTER 1 Preliminaries	33
CHAPTER 2 Generalized π -closed sets in topological spaces	42
2.1 Introduction	42
2.2 Generalized π closed sets	43
2.3 Generalized π open sets	48
2.4 Applications	49
2.5 On generalized π -continuous and generalized π irresolute functions	50
2.6 Contra generalized π -continuous functions	58
2.7 Almost contra generalized π -continuous	65
CHAPTER 3 Generalized π -compactness and generalized π -connectedness	70
3.1 Introduction	70
3.2 Generalized π -closed maps	71
3.3 Generalized π -homeomorphisms	77
3.4 Generalized π -compactness	81
3.5 Generalized π -connectedness	85
3.6 Generalized π - US spaces	88

	3.7	Sequentially $G\pi O$ -compact preserving functions	90
CHAPTER 4		Quasi generalized π-closed function	94
	4.1	Introduction	94
	4.2	Quasi $g\pi$ -open functions	94
	4.3	Quasi $g\pi$ -closed functions	97
	4.4	$G\pi$ -Quasi-irresolute functions	99
	4.5	$G\pi$ -quasi-closed graph	103
CHAPTER 5		Generalized π-closed sets in Bi-\checkmark Cech closure spaces	105
	5.1	Introduction	105
	5.2	(k_1, k_2) - $g\pi$ closed sets	105
	5.3	(k_1, k_2) - $g\pi$ open sets	107
	5.4	(k_1, k_2) - $g\pi$ Continuous Maps	108
	5.5	Applications of (k_1, k_2) - $g\pi$ - bi- \checkmark Cech closure spaces	110
CHAPTER 6		Generalized π-closed sets in Biminimal structure spaces	114
	6.1	Introduction	114
	6.2	$m_X^{(i,j)}$ - $g\pi$ closed sets	114
	6.3	$m_X^{(i,j)}$ - $g\pi$ continuous function	119
	6.4	$m_X^{(i,j)}$ - $g\pi$ - Dense Sets in Biminimal Structure Spaces	121

CHAPTER 7	Generalized π-closed sets and grill	125
7.1	Introduction	125
7.2	<u>Generalized π-closed sets with respect to a grill</u>	125
7.3	Grills: $g\pi(\theta)$ -convergence and $g\pi(\theta)$ -adherence	130
7.4	$g\pi$ -closed space and grills	134
	SUMMARY AND CONCLUSION	138
	PUBLICATIONS	140
