## **80 RECOMMENDATIONS**

The potential areas of further study in the field of Arab and Iranian Women Works:

1. The intersectionality of trauma with respect to gender, race and other identities can be explored.
2. The issues of trauma can be examined gender wise and medical treatment modified accordingly with trauma studies in Literature.
3. The role of trauma studies in creating a stress-free environment at home, workplace and society.
4. Historiography of trauma, caused by war and archiving it for posterity would help in the comparative analysis and betterment of situations during similar instances in other parts of the globe.
5. Create related technological innovations in the new eras to address the issues caused by trauma.
