1	INTRODUCTION	1
2	REVIEW OF LITERATURE	10
	2.1. Lifestyle Pattern and Cultural Practices among Muslim Women	10
	2.2. Health and Nutritional Status of Muslim Women	18
	2.3. Vitamin D Nutriture among Muslim Women	26
	2.4. Strategies to Combat Vitamin D Deficiency	34
	2.5. Digital Health Intervention	45
3	METHODOLOGY	51
	3.1. Phase I: Demographic Profile and Lifestyle Pattern of the Muslim Women	54
	3.1.1 Selection of Area	54
	3.1.2 Selection of Participants	54
	3.1.3 Formulation of tools	55
	3.1.4 Ethical authorization and informed consent	56
	3.1.5 Collection of baseline data	56
	3.2. Phase II: Health and Nutritional Status of Muslim Women	57
	3.2.1 Assessment of Nutritional status	57
	3.2.2 Estimation of serum Calcium and Vitamin D of selected women	63

	3.3. Phase III: Identification and Evaluation of Fortified Foods	64
	3.3.1 Market survey on Vitamin D fortified foods	64
	3.3.2 Calcium and Vitamin D analysis of selected fortified foods	65
	3.4. Phase IV: Development and Implementation of Intervention	68
	3.4.1 Development of digital health intervention modules	68
	3.4.2 Dietary modification	74
	3.4.3 Implementation of intervention strategies	75
	3.5. Phase V: Impact Evaluation	76
	3.6. Phase VI: Statistical Analysis and Interpretation	77
4	RESULTS AND DISCUSSION	78
	4.1 Factors Influencing Vitamin D Nutriture among Muslim Women	79
	4.1.1 Socio-economic background among the Muslim families	79
	4.1.2 Demographic profile of the Muslim women	84
	4.1.3 Health status of the Muslim women	90
	4.1.4 Dietary pattern of the Muslim women	95
	4.1.5 Lifestyle pattern of Muslim women	101
	4.1.6 Knowledge and attitude on Vitamin D	112
	4.1.7 Influence of dress code and Knowledge on Vitamin D	115

	4.2 Health and Nutritional Status of Muslim Women	121
	4.2.1 Anthropometric measurements	121
	4.2.2 Clinical examination	126
	4.2.3 Diet survey	127
	4.2.4 Serum Calcium and Vitamin D status of selected Muslim women	140
	4.3 Identification and Analysis of Vitamin D	148
	Fortified Foods	
	4.3.1 Market survey	148
	4.3.2 Calcium and Vitamin D content of fortified egg and milk	154
	4.4 Impact Evaluation	157
	4.4.1 Impact of digital health intervention and telephonic counseling on knowledge, attitude and practice	157
	4.4.2 Impact of digital health intervention and dietary modification on food and nutrient intake of the Muslim women	168
5	SUMMARY AND CONCLUSION	183
