Award of Degree of

Doctor of Philosophy in
Food Service Management and Dietetics

October 2021

**Association of Visceral Adiposity Index
and Lipid Accumulation Product with Insulin Resistance
among Selected Adult Women and the Impact of Intervention**

80_Recommendations

- Visceral adiposity indices in varied age groups and ethnicity with a larger sample size to validate among general and NCD populations can be carried out.

- The study did not include men since it was a women-centered study.
