

ANNEXURE XII  
PLAGIARISM CHECK REPORT

**Avinashilingam Institute for Home Science and Higher Education for Women**  
(Deemed to be University Estd. u/s 3 of UGC Act 1956, Category A by MHRD)  
Re-accredited with 'A++' Grade by NAAC.CGPA 3.65/4, Category I by UGC  
Coimbatore - 641 043, Tamil Nadu, India

**PLAGIARISM CHECK REPORT (THESES)**

1.	Name of the Research Scholar	R. Vatsala Mirnaalini
2.	Roll No. and Year of Registration	21PHCPP003, 2021
3.	Department	Psychology
4.	Name of the Research Guide	Dr. S. Gayatri Devi
5.	Title of the Thesis / Dissertation	Efficacy of Expressive Arts Therapy to enhance Academic Achievement among Learning Disabled Adolescents
6.	Similarity Content (%) Identified	3%
7.	Software Used	Turnitin
8.	Date of Verification	28-10-2024

**Note :** The report is excluding 14 Consecutive words, Review of Literature and Quoted Materials.

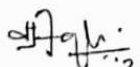

Checked by :

  
28/10/24

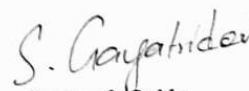

**Information Scientist**

**Research Scholar**

  
28.10.24

**Assistant Librarian**

**Research Guide**

Date: 28-10-2024

## Digital Receipt

This receipt acknowledges that Turnitin received your paper. Below you will find the receipt information regarding your submission.

The first page of your submissions is displayed below.

### CHAPTER I

#### INTRODUCTION

*"The first page of the Thesis" must be typed on the last member of the Introduction*

Dr. A.P.J. Abdul Kalam

*Education is not the learning of facts, but the training of the mind to think.*

— Albert Einstein

Learning disability can be explained as having difficulty in comprehending the content of the learning process, additionally, it is a difficulty with psychological processes that affect the fields related to writing, reading and mathematics. The psychological processes include trouble with perception, memory and spoken language.

Learning disability ranges from mild to severe. For some individuals with learning disability, they are capable of being independent in using some of themselves whereas in some cases they need assistance and are Learning Disabilities (LD).

Now, Learning Disability is a term with varied definition and often confused with ADHD or ASD. The prevalence of the disorder is highly variable and the statistical incidence rate could be found in many sources. Hence, the definition of LD is often seen as the reference could be further considered the definition given by the authors to be considered.

Teaching learning disability or highlighting the various reasons that it is extremely hard to find learning disability to be fully resolved. To reach perfection as well as consistent in the results of your paper in understanding the existing aspects of learning disability in the general population (Fuchs, 2011).

#### Prevalence of Learning Disability

Earlier the prevalence rate of learning disability is high as 14 people among 1000 in the general population which was considered to be successful outcome. Unfortunately, there learning disabled people had an IQ of around 70 which is considered as the lower level of IQ. But it is also essential to find learning disabled people to provide enough disability support to different and memory impairment as well as behavioral difficulties (Fuchs, 2011).

Learning disability prevalence is higher in developing countries higher in women than in men. Disability rates vary by age, gender and also among different countries (Fuchs, Learning and Developmental Disabilities: A Practical and Research Review, 2019).

According to National Center for Education Statistics (NCES) around 7.1 million school students (17%) were provided with special education services that falls under the category called Individuals with Disabilities Education Act (IDEA) in the year 2019-20
