

**BIO-MANAGEMENT OF ROOT ROT AND LEAF SPOT DISEASES  
IN *Stevia rebaudiana* USING PLANT GROWTH  
PROMOTING RHIZOBACTERIA**

*By*

**T. ANGAYARKANNI**

*Supervisor*

**Dr. (Mrs.) ANITHA SUBASH**

*A thesis submitted to*

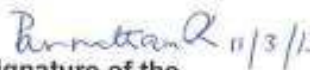

***Avinashilingam Institute for Home Science and Higher Education  
for Women, Coimbatore – 641043***

***In partial fulfilment of the requirements for the Degree of  
Doctor of Philosophy in Biochemistry***

***March, 2013***

## Certificate

This is to certify that the thesis entitled "**Bio-Management of Root Rot and Leaf Spot Diseases in *Stevia rebaudiana* using Plant Growth Promoting Rhizobacteria**" submitted to Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for the award of the degree of **Doctor of Philosophy in Biochemistry**, is a record of original research work done by **Ms. T. ANGAYARKANNI**, during the period of her study in the Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, under my supervision and guidance and the thesis has not formed the basis for the award of any Degree / Diploma / Associateship / Fellowship or similar title to any candidate of any University or Institute.

Head of the Department

  
Signature of the Guide

  
Signature of the Dean

### ***Declaration***

I hereby declare that the matter embodied in the thesis entitled "**Bio-Management of Root Rot and Leaf Spot Diseases in *Stevia rebaudiana* using Plant Growth Promoting Rhizobacteria**", is the result of investigations carried out by me in the Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, under the supervision and guidance of **Dr.(Mrs.) ANITHA SUBASH**, Professor, Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore and it has not been submitted for the award of any Degree / Diploma / Associateship / Fellowship or similar title of any University or Institute.

11/3/2013

**Signature of the Guide**

**Signature of the Candidate**

## *Acknowledgement*

First of all, the researcher owes a deep sense of gratitude to God Almighty for showering his abundant blessings on her during the research period and also for giving her the inner strength and confidence to complete the research work successfully.

The author registers her sincere gratitude to **Mr. T.S.K. Meenakshisundaram**, Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for permitting her to work for her doctoral programme in this University.

The author places on record her sincere appreciation to **Thiru T.K. Shanmuganandam** and **Thiru K. Kulandaivel**, Former Chancellors, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for giving her the opportunity to carry out the study in this University.

The author expresses her reverential thanks to **Dr. (Mrs.) Sheela Ramachandran**, Vice-Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for permitting her to utilize the infrastructure of the University for carrying out her research work effectively.

The author expresses her sincere thanks to **Hony. Col. Dr. Saroja Prabakaran**, Former Vice-Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore for rendering benevolent support during the tenure of her study.

She acknowledges **Dr. (Mrs.) Gowri Ramakrishnan**, Registrar, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for extending all the possible help towards the completion of this study.

The researcher is indebted to **Dr. (Mrs.) R. Parvatham**, Dean, Faculty of Science, Professor and Head, Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for her constant encouragement, timely help and tremendous support rendered in carrying out the research work.

The author renders her heartfelt gratitude to her Guide **Dr. (Mrs.) Anitha Subash**, Professor, Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for her liberal attitude, unwavering support, refreshing smile, comprehensive discussion, constructive criticism and painstaking attention given in planning and execution of the research work which were all most rewarding experiences.

It is with a deep sense of reverence that the author wishes to express her profound gratitude to **Dr. (Mrs.) G.P. Jeyanthi**, Controller of Examinations, Professor, Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for her sincere advice and suggestions given during the preparation of the dissertation.

The author also records her sincere thanks to all the staff members of the Department of Biochemistry, Biotechnology and Bioinformatics, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore.

Words fail to express her deep sense of gratitude to her husband **Dr. A. Kamalakannan**, for the constant co-operation and support and also for being a source of motivation throughout the study.

A special word of thanks is due to her parents, in-laws and her children **A.K. Nandita**, **A.K. Sarveshwar** and **A.K. Srinikaa** for their moral support and co-operation extended at all times.

<b>Chapter No.</b>	<b>Title</b>	<b>Page No.</b>
	<b>List of Tables</b>	
	<b>List of Figures</b>	
	<b>List of Plates</b>	
<b>1.0</b>	<b>Introduction .....</b>	<b>1</b>
<b>2.0</b>	<b>Review of Literature .....</b>	<b>6</b>
<b>3.0</b>	<b>Materials and Methods .....</b>	<b>36</b>
<b>4.0</b>	<b>Results and Discussion .....</b>	<b>58</b>
<b>5.0</b>	<b>Summary and Conclusion.....</b>	<b>115</b>
	<b>Bibliography .....</b>	<b>119</b>

## List of Tables

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
1	<i>Pseudomonas fluorescens</i> isolates from rhizosphere soils	62
2	<i>Bacillus subtilis</i> isolates from rhizosphere soils	64
3	Morphological and Biochemical characterization of <i>P. fluorescens</i>	66
4	Morphological and Biochemical characterization of <i>B. subtilis</i>	68
5	<i>In vitro</i> screening of <i>Pseudomonas fluorescens</i> against <i>Sclerotium rolfsii</i>	70
6	<i>In vitro</i> screening of <i>Bacillus subtilis</i> against <i>Sclerotium rolfsii</i>	71
7	<i>In vitro</i> screening of <i>Pseudomonas fluorescens</i> against <i>Alternaria alternata</i>	73
8	<i>In vitro</i> screening of <i>Bacillus subtilis</i> against <i>Alternaria alternata</i>	75
9	HCN production by antagonistic bacteria	81
10	Salicylic acid production by antagonistic bacteria	83
11	Siderophore production by antagonistic bacteria	85
12	Indole acetic acid production by antagonistic bacteria	86
13	Chitinase Production by antagonistic bacteria	88
14	Efficacy of antagonistic bacteria on Stevia root rot disease	90
15	Efficacy of antagonistic bacteria on Stevia leaf spot disease	92

## List of Figures

Figure No.	Title	Page No.
1	Phenylalanine ammonia lyase activity in Stevia against <i>S. rolfsii</i>	95
2	Peroxidase activity in Stevia against <i>S. rolfsii</i>	97
3	Polyphenol oxidase activity in Stevia against <i>S. rolfsii</i>	100
4	Total phenol content in Stevia against <i>S. rolfsii</i>	103
5	Phenylalanine ammonia lyase activity in Stevia against <i>A. alternata</i>	105
6	Peroxidase activity in Stevia against <i>A. alternata</i>	107
7	Polyphenol oxidase activity in Stevia against <i>A. alternata</i>	110
8	Total phenol content in Stevia against <i>A. alternata</i>	113

## List of Plates

Plate No.	Title	Page No.
1	<i>Stevia rebaudiana</i> Plant	39
2	Culture of <i>Sclerotium rolfsii</i>	40
3	Culture of <i>Alternaria alternata</i>	40
4	<i>Pseudomonas fluorescens</i> isolates	63
5	<i>Bacillus subtilis</i> isolates	64
6	<i>In vitro</i> screening of <i>P. fluorescens</i> isolates against <i>S.rolfsii</i>	70
7	<i>In vitro</i> screening of <i>Bacillus subtilis</i> isolates against <i>Sclerotium rolfsii</i>	72
8	<i>In vitro</i> screening of <i>Pseudomonas fluorescens</i> isolates against <i>Alternaria alternata</i>	74
9	<i>In vitro</i> screening of <i>Bacillus subtilis</i> against <i>Alternaria alternata</i>	76
10	Molecular confirmation of <i>Pseudomonas fluorescens</i> isolates by PCR	77
11	Molecular confirmation of <i>Bacillus subtilis</i> isolates by PCR	78
12	Hydrogen cyanide production by <i>P. fluorescens</i> isolates	81
13	Hydrogen cyanide production by <i>B.subtilis</i> isolates	82
14	Management of root rot of <i>Stevia</i> by antagonistic bacteria	91
15	Management of leaf spot of <i>Stevia</i> by antagonistic bacteria	93
16	Native PAGE profile of peroxidase isoforms Induced by antagonistic bacteria against <i>S. rolfsii</i> in <i>Stevia</i>	99
17	Native PAGE profile of Polyphenol oxidase isoforms Induced by antagonistic bacteria against <i>S. rolfsii</i> in <i>Stevia</i>	102
18	Native PAGE profile of Peroxidase isoforms Induced by antagonistic bacteria against <i>A. alternata</i> in <i>Stevia</i>	108
19	Native PAGE profile of Polyphenol oxidase isoforms Induced by antagonistic bacteria against <i>A. alternata</i> in <i>Stevia</i>	111
