

## Table of Contents

Chapter No	Title	Page No
<b>1.</b>	<b>Introduction .....</b>	<b>1</b>
1.1	Novelty of the study.....	9
1.2	Research Hypotheses .....	10
1.3	Scope of the study.....	10
<b>2.</b>	<b>Review of Literature .....</b>	<b>12</b>
2.1	Menstrual cycle: An overview .....	13
2.2	Polycystic Ovarian Syndrome (PCOS): An emerging reproductive health issue.....	15
2.2.1	Prevalence of PCOS among young adult women Population .....	15
2.2.2	Definition and Meaning of PCOS .....	16
2.2.3	Pathophysiology of PCOS.....	18
2.2.4	Clinical Manifestations of PCOS .....	20
2.2.4.1	Ovarian Dysfunction .....	20
2.2.4.2	Infertility.....	21
2.2.4.3	Hyperandrogenism .....	22
2.2.4.4	Metabolic Disorders .....	23
2.2.4.5	Psychological Features .....	24
2.2.5	Diagnosis of PCOS.....	25
2.2.6	Complications of PCOS .....	28
2.2.6.1	Early Term Complications .....	28
2.2.6.2	Long-Term Complications .....	29
2.3	Preventive Measures for minimising the consequences of PCOS.....	30
2.3.1	Dietary Management in PCOS .....	30
2.3.2	Exercise and stress management on PCOS .....	33
2.3.3	Medical care and alternative treatments for PCOS .....	35
<b>3.</b>	<b>Methodology .....</b>	<b>40</b>
3.1	Phase I: Screening of young adult women (18-21 years) to identify PCOS .....	43
3.1.1	Selection of area .....	43
3.1.2	Selection of subjects .....	44
3.1.3	Formulation of the tools .....	45
3.1.4	Conduct the survey .....	46
3.1.5	Screening and identification of PCOS subjects.....	46
3.2	Phase II: Mapping of subjects for nutrition intervention programme .....	48
3.2.1	Pre Assessment of Nutritional status using ABCD techniques.....	48
3.2.2	Exercise pattern and Stress level .....	53
3.2.3	Menstrual Hygiene .....	53
3.2.4	Self-administered Polycystic Ovarian Syndrome Questionnaire .....	53

<b>Chapter No</b>	<b>Title</b>	<b>Page No</b>
	3.2.5 Knowledge related to PCOS.....	54
3.3	Phase III: Formulation and Evaluation of Nutrient Dense Health Mix Powder (NDHMP) and Nutrition Education Modules.....	54
3.3.1	Nutrient Dense Health Mix Powder (NDHMP).....	54
3.3.1.1	Selection of the ingredients to formulate NDHMP.....	54
3.3.1.2	Sensory Evaluation of the NDHMP.....	57
3.3.1.3	Estimation of Nutrient Content of the NDHMP.....	59
3.3.1.4	Analysis of Physicochemical and Microbiological profile and presence of Heavy metals in the Formulated NDHMP.....	60
3.3.1.5	Calculation of Cost-effectiveness of the NDHMP.....	61
3.3.2	Nutrition Education Modules.....	61
3.3.2.1	Development and Validation of Nutrition Education Modules of PCOS.....	63
3.3.2.2	Creation of WhatsApp groups and YouTube channel for Nutrition Education Intervention.....	63
3.4	Phase IV: Nutrition Intervention Programmes on Symptoms of PCOS.....	65
3.4.1	Grouping of the Participants.....	65
3.4.2	Nutrition Education Intervention for the Study participants.....	65
3.4.3	Aerobic Exercise Training for the Study Participants.....	67
3.4.4	Nutrient Dense Health Mix Powder Supplementation for Dietary Intervention Programme.....	68
3.5	Effect of Nutrition intervention Programmes on Nutritional knowledge, nutrition and health status and on symptoms of PCOS.....	73
3.5.1	Effect of Nutrition Education on the Nutritional Knowledge of PCOS among the selected participants.....	73
3.5.2	Effect of Nutrition Interventions on the nutritional and Health Status of the Selected participants.....	73
3.5.3	Effect of nutrition intervention programmes on the Symptoms of PCOS among the selected participants.....	73
3.6	Phase VI: Data analysis and interpretation.....	74
<b>4.</b>	<b>Results and Discussion.....</b>	<b>75</b>
4.1	Phase I: Screening of young adult women (18-21 years) to identify PCOS .	77
4.1.1	Demographic profile of the selected Subjects.....	77
4.1.2	Socioeconomic status of the selected Subject.....	78
4.1.3	Lifestyle pattern of the selected Subjects.....	81
4.1.4	Nutritional status of the selected Subjects.....	83
4.1.5	Dietary patterns of the selected Subjects.....	87
4.1.6	Prevalence of Poly Cystic Ovarian Syndrome among the Selected Subjects.....	102
4.1.7	Nutritional and health issues experienced by the selected Subjects..	106
4.1.8	Medical history and Gynaecological problems of the selected Subjects.....	110
4.1.9	Knowledge and Attitude towards PCOS of the selected Subjects.....	112

<b>Chapter No</b>	<b>Title</b>	<b>Page No</b>
4.2	Phase II: Mapping of the study participants for Nutritional Interventions	117
4.2.1	Nutritional Status of the study Participants	
4.2.1.1	Anthropometric measurements.....	117
4.2.1.2	Biochemical profile .....	121
4.2.1.3	Clinical profile .....	122
4.2.1.4	Dietary Intake .....	124
4.2.2	Physical Examination of the selected study Participants .....	127
4.2.3	Menstrual Hygiene of the selected PCOS Participants .....	127
4.2.4	Exercise pattern, stress level and Sun Exposure of the selected study Participants .....	130
4.2.5	Nutritional knowledge related to PCOS of the selected study Participants .....	134
4.3	Phase III: Formulation and Evaluation of Nutrient Dense Health Mix Powder	
4.3.1	Sensory Evaluation .....	136
4.3.2	Nutrient content of the selected Nutrient Dense Health mix Powder	139
4.3.3	Physicochemical properties, microbiological analysis and presence of heavy metals .....	140
4.3.4	Cost-effectiveness of the Nutrient Dense Health Mix Powder.....	143
4.4	Phase IV: Effect of Nutrition interventions on Nutritional knowledge and Nutritional Status of the Selected Study Participants .....	146
4.4.1	Nutrition Education intervention on the knowledge of PCOS among the selected Participants .....	146
4.4.2	Effect of nutrition interventions on the nutritional and health status of the selected Participants .....	148
4.4.2.1	Anthropometric measurements .....	148
4.4.2.2	Biochemical profile .....	151
4.4.2.3	Clinical profile .....	154
4.4.2.4	Dietary intake.....	156
4.4.2.5	Stress level .....	165
4.4.3	Effect of nutrition interventions on the symptoms of PCOS among the selected Participants .....	168
4.4.4	Correlation Analysis .....	171
4.4.4.1	Correlation between Mean Nutrient Intake and PCOS Symptoms .....	171
4.4.4.2	Correlation between Biochemical profile, BMI and WHR .....	176
<b>5.</b>	<b>Summary and Conclusion.....</b>	<b>178</b>
5.1	Objectives .....	178
5.2	Salient findings of the research study .....	182
5.3	Recommendations for the future research .....	199
5.4	Limitations of the study .....	200
5.5	Scope of the study.....	200
<b>6.</b>	<b>Reference .....</b>	<b>202</b>

## List of Tables

Table No	Title	Page No
2.1	Features of diagnosing PCOS .....	29
3.1	Criteria for selection of subjects.....	44
3.2	Rotterdam 2003 criteria to diagnose PCOS.....	47
3.3	Grading of PCOS Risk Assessment Scores .....	48
3.4	Grades of Malnutrition .....	50
3.5	Ingredients in the Health Mix Powder.....	55
3.6	Ingredients used in Three Variations of NDHMP.....	56
3.7	Mean Scores of Different Variations.....	58
3.8	Methods/Procedures adopted for Nutrient analysis.....	60
3.9	Diet Plan for Underweight PCOS Subjects.....	70
3.10	Diet Plan for PCOS Subjects with Normal BMI .....	71
3.11	Diet Plan for Overweight PCOS Subjects .....	72
4.1	Demographic Profile of the Selected Subjects.....	77
4.2	Socio-Economic Status of the Study Subjects .....	79
4.3	Lifestyle pattern of selected Subjects.....	82
4.4	Anthropometric measurements of selected subjects.....	83
4.5	Correlation of BMI with WHR, Sleep duration, and Habit of doing exercise .....	86
4.6	Dietary Pattern of the selected subjects .....	88
4.7	Correlation Analysis of Dietary Pattern with Habit of Skipping meal.....	89
4.8	Consumption of Energy Dense Foods.....	90
4.9	Food Intake Frequency of the selected subjects	91
4.10	Descriptive statistics for various food groups consumed by the selected subjects (N=1250).....	93
4.11	Principal Component Analysis of FFQ.....	95
4.12	Frequency of beverage consumption among the Study Subjects (N=1250) .....	98
4.13	Quantity of beverage consumption on each time among the Study Subjects (N=1250) .....	99
4.14	Descriptive statistics for water and different types of beverages.	101
4.15	Grouping of selected subjects based on RA Scores and Hirsutism Scores .....	102
4.16	Prevalence of PCOS .....	103
4.17	Correlation of Risk Assessment Score with Hirsutism Score and BMI .....	104
4.18	Correlation of Hirsutism Scores with Risk Assessment Scores and BMI.....	105
4.19	Nutritional and health problems experienced by the selected subjects.....	107

<b>Table No</b>	<b>Title</b>	<b>Page No</b>
4.20	Significant Correlations among Health Variables.....	109
4.21	Assessment of Knowledge related to Problems and Treatments of PCOS.....	112
4.22	Attitude of Subjects on Effectiveness of Weight reduction, Diet and Physical activity on PCOS.....	114
4.23	Regression Model of Coefficients for knowledge on PCOS by Family Class.....	115
4.24	Regression Model of Coefficients for knowledge on PCOS by Age.....	116
4.25	Anthropometric measurements (Height, Weight & BMI) of selected participants .....	118
4.26	Anthropometric measurements (Waist, Hip & WHR) of selected study participants.....	119
4.27	One-way ANOVA- between Anthropometric Parameters of Study groups (Pre-Assessment).....	120
4.28	Biochemical Profile of the selected study participants.....	121
4.29	Analysis of Acne Scores of the Selected Study Participants....	122
4.30	Profile of PCOS Symptoms among the Study Participants.....	123
4.31	Differences in acne severity and pre-PCOS symptoms among the selected study groups.....	124
4.32	Mean Nutrient Intake of the Selected Participants .....	125
4.33	Profile of Menstrual Hygiene among the selected participants in the Study Groups.....	128
4.34	Exercise level of the selected study participants.....	130
4.35	Stress Level of the selected study participants.....	131
4.36	Correlation between Exercise Pattern and Stress level among the selected study participants.....	133
4.37	Sun Exposure of Selected Study Subjects.....	134
4.38	Nutritional Knowledge related to PCOS of the selected study participants.....	135
4.39	Mean and Standard Deviation of the formulated Nutrient Dense Health Mix Powder.....	139
4.40	Nutrient content of Nutrient Dense health mix powder and Comparison with ICMR RDA .....	140
4.41	Physicochemical and microbiological profile of the Nutrient Dense Health Mix Power.....	141
4.42	Presence of Heavy metals in the formulated Nutrient Dense Health Mix Power.....	143
4.43	Cost Effectiveness of the formulated NDHMP.....	144

<b>Table No</b>	<b>Title</b>	<b>Page No</b>
4.44	Cost comparison of Nutrient Dense Health Mix Powder with other market products.....	145
4.45	Effect of Nutrition Education Intervention on the Knowledge of PCOS.....	147
4.46	Effect of Nutrition Interventions on Height, Weight and BMI.....	149
4.47	Effect of Nutrition Interventions on Waist, Hip and Waist to Hip Ratio.....	150
4.48	Effect of Nutrition Interventions on Biochemical Profile.....	152
4.49	Grades of Acne of the Selected Study Participants (Pre and Post Nutrition Interventions).....	154
4.50	Mean Nutrient Intake of the selected study participants in the Control Group .....	157
4.51	Mean Nutrient Intake of the selected study participants in the Experiment Group 1.....	158
4.52	Mean Nutrient Intake of the selected study participants in the Experiment Group 2.....	160
4.53	Mean Nutrient Intake of the selected study participants in the Experiment Group 3.....	162
4.54	Comparison of Mean Nutrient Intake of specific nutrients in experiment groups.....	164
4.55	Stress level of the selected study participants.....	165
4.56	Effect of Nutrition Interventions on Stress Levels of the selected study participants.....	167
4.57	Effect of Nutrition Interventions on problems and Symptoms of PCOS.....	169
4.58	Correlation between Mean Nutrient Intake with Weight-Related Problems .....	172
4.59	Correlation between Mean Nutrient Intakes and Menstrual Problems .....	173
4.60	Correlation between Mean Nutrient Intakes and Hirsutism.....	174
4.61	Correlation between Mean Nutrient Intakes and Emotional Problems.....	176
4.62	Correlation between Biochemical Profile with BMI and WHR.....	177

## List of Figures

Figure No	Title	Page No
2.1	Negative and positive feedback mechanisms to regulate the menstrual cycle .....	14
2.2	Vicious Cycle of PCOS Pathophysiology.....	19
3.1	Thrissur Area Map.....	43
3.2	Recording of Anthropometric Measurements.....	49
3.3	Biochemical Estimation with the support of Medical Personals.....	51
3.4	Steps involved in the formulation of NDHMP.....	57
3.5	Weighing and Packaging of NDHMP.....	59
3.6	Nutrition Education Intervention Programme Schedule.....	62
3.7	Nutrition Education Programme Modules.....	64
3.8	Nutrition Education by Google Meet.....	66
3.9	Nutrition Education in offline.....	67
3.10	Aerobic Exercise Training.....	68
4.1	Socioeconomic Status of the Families based on the Kuppuswamy Scale.....	80
4.2	Distribution of subjects based on BMI.....	85
4.3	Number and Per cent of the selected subjects had more than three symptoms of health issues.....	108
4.4	Medical History of the Subjects (N=1250).....	110
4.5	Gynaecological problems of the selected subjects (N=1250).....	111
4.6	Knowledge on Symptoms of PCOS.....	113
4.7	Ultrasound Scanning Analysis of the sub-samples of the study groups.....	127
4.8	Exercise level of the selected study subjects.....	131
4.9	Stress Level of the selected study participants.....	132
4.10	Mean Scores of Sensory Evaluation of the Formulated Nutrient-Dense Health Mix Powder.....	136
4.11	Overall Acceptability of different variations of formulated Nutrient Dense Health Mix Powder.....	137
4.12	Overall Effect of Nutrition Intervention on BMI and WHR of the selected study participants.....	151
4.13	Overall effect of Nutrition Interventions on RBS, Cholesterol and Haemoglobin.....	153
4.14	Overall Effect of Nutrition Interventions on Acne.....	155
4.15	Overall effect of Interventions on the Stress levels of the selected participants.....	168
4.16	Overall Effect of Nutrition Intervention on Symptoms of PCOS....	170
<b>Plate 1</b>	Microbiological Assessment of the Formulated Nutrient Dense Health Mix Powder.....	142

### List of Plates
