CHAPTER I

INTRODUCTION

1.0	Introduction	1
1.1	Blindness Rates Globally and in India	1
1.2	Historical Perspectives of Education for Blind	3
1.3	Education of the Blind in Pre- and Post-Independent India	4
1.4	Inclusive Education in India	4
1.5	Use of Technology in the Education of Visually Impaired	6
1.6	Use of Technology in the Employment of Visually Impaired	7
1.7	Use of Technology in the Classroom	8
1.8	STEM Education for Visually Impaired	9
1.9	Science Education for the Blind	10
1.10	Importance of Mathematics Education	11
1.11	Technology and Use of Technology in Teaching Subjects for Blind Students	13
1.12	Rationale for the Study	26
1.13	Statement of the Problem	28
1.14	Terms Used in the Study	29
1.15	Objectives	31
1.16	Hypotheses	31
1.17	Scope of the Study	32
1.18	Delimitations	33
1.19	Organization of the Study	33

CHAPTER II

REVIEW OF RELATED LITERATURE

2.0	Introduction	35
2.1	Education of students with Visual impairment	36
2.2	Inclusive Education for the Students with Visual Impairment	38
2.3	Tactile Medium of Learning for Students with Visual Impairment	39
2.4	Teaching Mathematics to Students with Visual Impairment	40
2.5	Challenges in Learning Mathematics by Students with Visual Impairment	41
2.6	Teaching Geometry to Students with Visual Impairment	42
2.7	Tactile Sense and Graph Education of students with Visual Impairment	43
2.8	Haptic Graphs for Students with Visual Impairment	45
2.9	Audio Tactile for Students with Visual Impairment	47
2.10	Graph Accessibility for Students with Visual Impairment	48
2.11	Graphical Challenges for Students with Visual Impairment	50
2.12	Use of Technology for Teaching Mathematics to Students with Visual Impairment	51
2.13	Use of Technology in Teaching Graph	53
2.14	STEM Education for students with Visual Impairment	56
2.15	Conclusion	57

CHAPTER III

METHOD

3.0	Introduction	58
3.1	StageI : Design and Development of Computer Assisted Cartesian Plane	58
3.2	Pilot Study	76
3.3	Stage 2: Study the Effectiveness of Computer Assisted Cartesian Plane	76
3.4	Data Collection Procedure	88
3.5	Data Analysis	88

CHAPTER IV

ANALYSIS AND INTERPRETATION

4.0	Introduction	90
4.1	Analysis of Software Component of the Computer Assisted Cartesian Plane	91
4.2	Analysis on Acquisition of Concepts of Cartesian Plane introduced Before and After Introduction of Computer Assisted Cartesian Plane among Students with Visual Impairment	91
4.3	Analysis on Acquisition of Concepts of Cartesian Plane introduced Before and After Introduction of Computer Assisted Cartesian Plane among Students with Visual Impairment	94
4.4	Analysis of Performance in Computer Assisted Cartesian Plane	104
4.5	Influence of Gender/Grade and their resultant interaction on Graph Concepts by analysis of Covariance (ANCOVA)	112

CHAPTER V
SUMMARY AND CONCLUSION

5.0	Introduction	127
5.1	Rationale	127
5.2	Objectives	129
5.3	Method	130
5.4	Findings	136
5.5	Discussion	140
5.6	Suggestions	142
5.7	Theoretical and Practical Implications	142
5.8	Recommendation	143
5.9	Conclusion	144
