

LIST OF FIGURES

List of Figures

| | | |
|------|--|----|
| 1.1 | Signature generation and comparison | 11 |
| 2.1 | Word Signature method | 19 |
| 2.2 | Superimposed coding method | 20 |
| 2.3 | Compression-based method | 20 |
| 2.4 | Bit-Block compression method | 21 |
| 2.5 | Signature storage by concatenation | 21 |
| 2.6 | Signature storage by parts concatenation | 21 |
| 2.7 | A typical sequential signature file | 25 |
| 2.8 | A typical bit-sliced signature file | 26 |
| 2.9 | A typical CBSSF organization | 27 |
| 2.10 | S-tree organization and node splitting | 30 |
| 2.11 | A typical Multilevel Signature file organization | 31 |
| 2.12 | A typical signature file and signature graph | 33 |
| 2.13 | A typical signature tree with sample trace of tree generation | 35 |
| 2.14 | An example of nested object hierarchy | 47 |
| 2.15 | Signature and signature file hierarchy | 50 |
| 2.16 | Query tree and query signature tree | 51 |
| 3.1 | A typical structure of an internal node | 58 |
| 3.2 | A typical leaf node entry | 58 |
| 3.3 | A typical signature node entry | 59 |

| | | |
|-------------|---|-----------|
| 3.4 | Sample SD-tree | 59 |
| 3.5 | Insertion algorithm | 62 |
| 3.6 | Search algorithm | 64 |
| 3.7 | Deletion algorithm | 65 |
| 3.8 | Time complexity | 69 |
| 3.9 | Space overhead | 69 |
| 3.10 | Sample object schema | 77 |
| 4.1 | Schema of classes with set-valued attributes | 80 |
| 4.2 | Algorithm Subset | 81 |
| 4.3 | Algorithm Superset | 83 |
| 4.4. | Subset Query | 85 |
| 4.5 | Superset Query | 86 |
| 5.1 | A nested object hierarchy | 90 |
| 5.2 | Query signature tree | 91 |
| 5.3 | Algorithm for nested query evaluation | 92 |
| 5.4 | A general query tree | 93 |
| 5.5 | Experiment Data Set | 95 |
| 5.6 | Comparison results | 96 |
| 5.7 | Time complexity | 96 |
| 5.8 | Query response time | 97 |
| 5.9 | Example of query evaluation | 99 |
