

**Avinashilingam Institute for Home Science and Higher Education for Women
(Deemed to be University under Category 'A' by MHRD, Estd. u/s 3 of UGC Act 1956)
Re-accredited with A++ Grade by NAAC. Recognized by UGC Under Section 12B
Coimbatore - 641 043, Tamil Nadu, India**

**Continuous Internal Assessment I – April 2025
II Semester**

**Class : I UG
Branch : BASLP**

**Time : 2 Hours
Max. Marks : 60**

22BASD02 DSE II: Otolaryngology

Course Outcomes:

- CO1:** causes, signs, symptoms, pathophysiology and management of diseases of external ear
CO2: causes, signs, symptoms, pathophysiology and management of diseases of inner ear
CO3: causes, signs, symptoms, pathophysiology and management of diseases of oral cavity
CO4: causes, signs, symptoms, pathophysiology and management of diseases of laryngeal cavity
CO5: causes, signs, symptoms, pathophysiology and management of diseases of articulatory system

**Part A
Choose the Correct Answer**

6 x 1 =6

- | | | |
|----|--|-------|
| 1. | Structure affected in vestibular disorders leading to vertigo: | CO3K1 |
| | a) Semicircular canals
b) Cochlea
c) Tympanic membrane
d) Eustachian tube | |
| 2. | Most common symptom of Vestibular Schwannoma | CO3K1 |
| | a) Progressive unilateral sensorineural hearing loss
b) Conductive hearing loss
c) Ear pain
d) Otorrhea | |
| 3. | Most common malignancy of the pharynx | CO4K1 |
| | a) Squamous cell carcinoma
b) Adenocarcinoma
c) Lymphoma
d) Sarcoma | |
| 4. | Structure that forms the posterior boundary of the oral cavity | CO4K1 |
| | a) Hard palate
b) Soft palate
c) Epiglottis
d) Uvula | |
| 5. | Structure forming the framework of the larynx | CO5K1 |
| | a) Cartilage
b) Muscle
c) Bone
d) Ligament | |
| 6. | Most common congenital laryngeal anomaly | CO5K1 |
| | a) Laryngomalacia
b) Subglottic stenosis
c) Laryngeal web
d) Vocal cord paralysis | |

Part B

3 x 6 = 18

Answer ALL questions

Each answer should not exceed 400 words or two pages

- 7a. Describe the various disorders of the vestibular system, including their causes, symptoms, and treatment options CO3K2
- Or
- 7b. Describe the management of Vestibular Schwannoma, focusing on different surgical approaches, their advantages, and potential complications CO3K2
- 8a. Describe the anatomical divisions and structures of the oral cavity CO4K2
- Or
- 8b. List and explain common disorders of the oral cavity.. CO4K2
- 9a. Describe the clinical anatomy of the larynx in detail, including its structural components, functions, and applied aspects. CO5K2
- Or
- 9b. Discuss the differences between the adult and infant larynx, emphasizing clinical significance. CO5K2

Part C

3 x 12 = 36

Answer ALL questions

Each answer should not exceed 800 words or four pages

- 10a. Describe the various disorders of the vestibular system, including their causes, symptoms, and treatment options. CO3K3
- Or
- 10b. Explain the pathophysiology and clinical features of Meniere's disease CO3K3
- 11a. Explain the classification, causes, symptoms, and management of tumors of the oral cavity.. CO4K3
- Or
- 11b. Explain the clinical anatomy and physiology of the pharynx and its role in respiration and swallowing. CO4K3
- 12a. Explain laryngectomy, its indications, surgical steps, complications, and post-surgical rehabilitation. CO5K3
- Or
- 12b. Describe benign and malignant tumors of the larynx, their risk factors, clinical features, diagnosis, and management. CO5K3
