

TABLE OF CONTENTS

Chapter No.	Title	Page No.
	LIST OF TABLES	xi
	LIST OF FIGURES	xii
	LIST OF ABBREVIATIONS	xiv
	ABSTRACT	xv
1	INTRODUCTION	
	1.1 Traditional Learning Method	1
	1.1.1 Importance of Traditional Teaching	1
	1.1.2 Challenges in Traditional Education	1
	1.2 Evolution of Educational System in India	2
	1.3 Role of Augmented Reality in Remote Learning	4
	1.3.1 Cost Effective and Accessibility	4
	1.3.2 Enhanced Engagement and Interaction	5
	1.3.3 Bridging the Gap Between Theory and Practice	5
	1.3.4 Visualization and Understanding of Complex Concepts	5
	1.3.5 Personalized Learning Experiences	5
	1.3.6 Fostering Collaboration and Social Interaction	6
	1.3.7 Challenges and Considerations	6
	1.3.8 Possibilities of Applying AR in Remote Learning	6
	1.4 Computer Vision for Augmented Reality	8
	1.4.1 3Dimensional Object Modelling	8
	1.4.2 Object Tracking in Augmented Reality	9
	1.4.2.1 Closed Loop Tracking in Augmented Reality	10
	1.4.2.2 Benefits of Closed-Loop Tracking	11
	1.4.2.3 Implementation Challenges	12
	1.4.2.4 The Future of Closed-Loop AR	12
	1.4.3 The Future of 3D Augmented Reality	13
	1.5 Deep Learning	14
	1.6 Integrating Augmented Reality and Deep Learning	14
	1.7 Problem Statement	17
	1.8 Motivation	17
	1.9 Objectives	18
	1.10 Research contribution	18

Chapter No.	Title	Page No.
	1.11 Organization of the Thesis	19
	1.12 Summary	19
2	LITERATURE REVIEW	
	2.1 Introduction	21
	2.2 Augmented Reality Based Learning	21
	2.3 Effect of Environmental Light	28
	2.4 Computer Vision	30
	2.5 Deep Learning Algorithms	32
	2.6 Research Gaps Identified	42
	2.7 Summary	43
3	DATASET DESCRIPTION	
	3.1 Introduction	44
	3.2 Data Collection Methodology	44
	3.3 Survey Based Data Acquisition	45
	3.3.1 Input Variables	45
	3.3.2 Target Variables	47
	3.3.3 Survey Framework	49
	3.4 Insight of Open-Source Dataset	49
	3.4.1 Panorama Dataset	49
	3.4.2 ADVIO Dataset	50
	3.5 Experimental Setup	50
	3.6 Summary	51
4	AUGMENTED REALITY BASED DIDACTIC SYSTEM FOR LEARNING FACTORY IN TECHNICAL EDUCATION	
	4.1 Introduction	52
	4.1.1 Overview of Learning Factory	54
	4.1.2 Overview of Augmented Reality	55
	4.2 Development of AR – Based Didactic System	55
	4.2.1 Design of Didactic System	56
	4.2.1.1 Need for the AR – based Didactic System for Education	56
	4.2.1.2 The use of AR in Didactic System	56
	4.3 Augmented Reality Based Didactic System for Education	57
	4.4 Implementation, Evaluation & Enhancement	60

Chapter No.	Title	Page No.
	4.5 Working Framework	61
	4.5.1 Developed AR Based Didactic System	62
	4.5.1.1 Offset Printing Machine and Combo Box	63
	4.6 System Testing and Performance Evaluation	63
	4.7 Performance Parameters	64
	4.8 Data Driven Analysis	65
	4.9 AR based Didactic System Upgradation	67
	4.10 Results and Discussion	72
	4.11 Summary	74
5	IMPACT OF LUMINOUS ON AUGMENTED REALITY RESPONSE TIME	
	5.1 Introduction	76
	5.2 Problem Identified	77
	5.3 Design and Structure of the work	77
	5.4 Stages of Development to Test the Application	78
	5.4.1 Workflow Diagram of the Experimental Process	79
	5.4.2 CNN with 6 DOF	80
	5.4.2.1 Challenges in Implementation of CNN for Object Detection	83
	5.4.2.2 Camera Pose Estimation	85
	5.4.2.3 Image Rendering	87
	5.4.2.4 Reflections	88
	5.5 Implementation	88
	5.5.1 Platform Description	89
	5.5.2 Experimental Prototype	89
	5.5.3 Experiment	91
	5.5.3.1 Digital Target Image	92
	5.5.3.2 Printed Target Image	93
	5.6 Results and Discussion	95
	5.7 Summary	98
6	AUGMENTED REALITY BASED OBJECT DETECTION AND RENDERING USING VISUAL SLAM BASED DEEP LEARNING TECHNIQUE	
	6.1 Introduction	99
	6.2 Problems faced by existing models	100

Chapter No.	Title	Page No.
	6.3 Overview of 3D Spatial Marker Using VSLAM	104
	6.4 Stimulative Implementation of 3D Object with Real-World Scenario	105
	6.4.1 Preprocessing Module	105
	6.4.2 Visual SLAM Module	108
	6.4.3 Object Detection and Registration Module	111
	6.5 Results and Discussion	117
	6.5.1 Result of Tracking Time	118
	6.6 Conclusion	123
7	IMPLEMENTATION AND EVALUATION	
	7.1 Introduction	125
	7.2 Quantitative Analysis	126
	7.3 Qualitative Analysis	127
	7.4 Comparative Analysis	128
	7.5 Summary	129
8	CONCLUSION AND FUTURE WORK	
	8.1 Conclusion	130
	8.2 Future Work	131
	REFERENCES	132
	ANNEXURES	142
	PUBLICATIONS	
	PLAGIARISM REPORT
